SOFÍA FERNÁNDEZ CALVO

Product Designer | Senior UX/UI Specialist

Buenos Aires, Argentina | sofiafcalvob@gmail.com | +54 9 11 3509-6568

[LinkedIn Profile] | [Portfolio]

PROFESSIONAL SUMMARY

Product Designer with 7+ years of experience crafting digital products and user experiences for B2B, B2C, fintech, and e-commerce solutions. Specialized in end-to-end product integration, scalable Design Systems architecture, and the optimization of conversational interfaces and Artificial Intelligence agents. Driven by a data-informed approach, continuous validation, and strong alignment between business goals and user needs.

PROFESSIONAL EXPERIENCE

Momentus Technologies | *Product Designer (AI-First Workflow)*

04/2026 – 10/2026

- Spearheaded the end-to-end design of a strategic new product, managing everything from legacy platform analysis and user/stakeholder interviews to high-fidelity prototyping, user stories, and technical documentation.
- Adopted an AI-first working methodology, leveraging artificial intelligence tools to automate operational tasks, streamline the research process, and accelerate ideation and delivery timelines.
- Identified and resolved long-standing user pain points in record time, directly improving system usability and restoring end-user trust in the platform.
- Collaborated closely within cross-functional agile squads alongside Product Managers, Engineers, and QA, ensuring smooth execution, business alignment, and friction-free technical handoffs.

Numia | *Product Designer*

04/2025 – 02/2026

- Led the development and governance of the Design System and the Organizations framework, unifying information architecture and ensuring cross-product consistency.
- Designed user experiences and interaction flows (conversational UX and prompting) to optimize Artificial Intelligence agents, improving usability for complex interactions.

- Partnered actively with Product Owners and Engineering across the discovery, definition, and end-to-end execution of solutions, speeding up delivery and deployment cycles.

Conserv | *Product Designer*

04/2022 – 04/2025

- Contributed to cross-functional product teams driving user experience across both Web/Desktop and Mobile App environments.
- Redesigned Analytics and Reporting modules, translating complex data into clear, actionable visualizations that increased user engagement and usability.
- Validated design decisions and iterations through user research, usability testing, key metric tracking, and continuous feedback loops.

Trafilea | *Sr. UX/UI Designer*

01/2022 – 04/2022

- Designed and iterated product pages (PDPs), upsell, and cross-sell strategies focused on conversion rate optimization (CRO) within the e-commerce funnel.
- Executed and analyzed A/B tests to validate design hypotheses with real traffic, driving data-backed business decisions.
- Contributed to the evolution of the global brand Design System, ensuring visual and functional consistency across all sales platforms.

Santander Tecnología | *UX / UI Designer (Core Team)*

01/2021 – 01/2022

- Standardized and documented key components for the institutional Design System, ensuring scalability across multiple banking products.
- Redesigned and optimized user onboarding and authentication flows, leading cross-team communication strategies for security updates.

Gen IT | *UX / UI Design Analyst*

01/2019 – 01/2022

- Managed UX/UI, graphic, and web design for institutional and digital assets.
- Coordinated deliveries with development teams and external vendors, while leading internal workshops on design and interface best practices.

Proyectiva SA | *Web Designer & Front-end Layout*

04/2018 – 01/2019

- Handled web layout (HTML/CSS), newsletter design, and digital campaign graphics.

Nanda Producto Esencial | *Graphic Designer & E-commerce*

07/2016 – 01/2018

- Managed the e-commerce platform visual identity (Magento), product photography, packaging, and digital channels content.
